

Name: SHUBH RAVISHANKAR GAWHADE

Project Title: One-Way Ride

Reference: EMS6351

Status: Approved with specific conditions

Approval Date: 13.02.23

Specific conditions:

Given the mature game content identified within the ethics section, it is requested that all project materials are provided to and approved by your supervisor before any work is shown to a wider audience. You will have to take appropriate steps to ensure your work is not viewed by a younger audience and that appropriate warnings are contained within the project so that all audiences are aware of the content. This will be particularly important at the ADGS if you choose to participate.

The Standard Conditions below apply to all approved student Research Ethics applications:

- i. If any substantive changes to the proposed project are made, a new ethical approval application must be submitted to the Committee.
- ii. The Proposer must remain in regular contact with the project supervisor.
- iii. The Supervisor must see a copy of all materials and procedures prior to commencing data collection.
- iv. Any changes to the agreed procedures must be negotiated with the project supervisor.
